Recently, Inner Mongolia Jindawei Pharmaceutical Co., Ltd. stated that the current Phase II project includes a 620-ton coenzyme Q10 expansion and renovation project, a 30,000-ton allulose project, a 5,000-ton inositol project, a 10,000-ton calcium pantothenate project and a 1,000-ton astaxanthin project. It will be completed by the end of this year and officially put into operation next year. After all of them reach full production, the additional output value is expected to be about 1 billion yuan.

## AMINO ACID

02

Threonine: Threonine manufacturers' quotations are stable, mainly for delivery, and there are not many transactions in the trade market. The actual quotation is USD1.48-1.51/KG. Market inquiries are weak. End users have inventory and are cautious about replenishing. A small amount of inventory is replenished before the Spring Festival. Pay attention to the actual transaction situation of enterprises in the near future. It is expected that the price of threonine may run steadily.

## API

03

Recently, the groundbreaking ceremony for the veterinary preparation and animal vaccine construction project of Shijiazhuang Shengao Biotechnology Co., Ltd., located in Zhengding High-tech Zone, Shijiazhuang, with a total investment of 500 million yuan, was held. The first phase of the construction includes 12 biological product production lines and 2 chemical preparation production lines. The products cover animal vaccines, antibodies, chemical preparations and other varieties, involving livestock, poultry, pets and other fields

## FOOD ADDITIVE
