18th. February. 2025

VITAMIN | Niacin

01

According to market news, Indian Western Pharmaceuticals declared force majeure on February 14, 2025, after a fire broke out at its vitamin B3 plant in Udaipur, Rajasthan, India on February 12, 2025. The chemical company confirmed that only niacin was affected and niacinamide was not affected. The plant has a production capacity of 7,000 tons of niacin and niacinamide per year. The fire was quickly brought under control and no casualties were reported. Due to the extensive fire, which caused significant damage to the plant, it may take a long time to resume and restart niacin production, according to a letter sent to customers. The cause of the accident is under investigation and authorities are monitoring the affected buildings.

AMINO ACID | Methionine

02

Methionine: The quotations of solid methionine manufacturers have been adjusted in a narrow range, and the trade market is not actively inquiring. The market price is USD2620-2720/MT, and the demand is slightly weak. The quotations of liquid methionine manufacturers are stable, and the trade market quotes USD2000-2045/MT. The terminal demand is general, and some rigid needs sign a small number of orders. The overall number of orders is not large. Pay attention to the maintenance plans of various manufacturers and the progress of the commissioning of new production capacity.

API | Doxycycline Hcl

03

Doxycycline hydrochloride, domestic and foreign customers are actively inquiring and paying attention to it in the market this week. The market price is relatively stable. The current market transaction is around USD44.9/KG. Please pay attention to it later.

FOOD ADDITIVE | Sucralose

04

Affected by market demand, the price of food sweetener sucralose is currently stable at 23-24 USD/KG. The possibility of price increase in the future cannot be ruled out.
