VITAMIN

01

June 11th, Kingdomway announcement, their owned subsidiary Xiamen Kingdomway Vitamins Co., Ltd. recently received a certificate of invention patent issued by the State Intellectual Property Office, invention name: a vitamin A intermediate tetradecanal preparation method.

AMINO ACID

02

Threonine: The factory's current offer is firm, the export price is between USD 1230-1260/T. The trade market enquiry has increased, but the end-users are generally signing orders and replenishing as they go, and some factories are suspending their offer to boost the domestic market turnover atmosphere, and the subsequent concern is on the factory's offer and the signing order situation.

API

03

Florfenicol: The recent market demand is relatively stable, the supply side by the cost support strong willingness to support prices, near the CPHI market more wait-and-see, the current market price of 22.9usd/kg or so, later continued to pay attention to market demand and supply changes.

FOOD ADDITIVE

04

Recently, food additives xanthan gum by market demand, the domestic mainstream manufacturers price increases, some manufacturers continue to stop reporting, the current domestic market transaction price in the price of 3.5-3.8usd/kg or so, do not rule out the possibility of subsequent price increases.
