Vitamins to VEGA!

26th. June. 2024

VITAMIN/ VE 50%

01

The domestic market transaction price reached 75-78 RMB, the export FOB transaction price was around USD9.5/KG, the local transaction price in Europe was €8.5-8.8(equivalent to 9-9.4 USD, the local transaction price in North America was 9.25-9.75 USD, and the local transaction price in South America was 9.5-9.8 USD.

AMINO ACID / Tryptophan

02

According to customs data, 2,064 tons of Tryptophan were imported in May, up 41.8% from the previous month and 62.1% from the previous year. From January to May 2024, the cumulative import of tryptophan was 9,578 tons, up 15.7% from the previous year. Recently, the factory's external quotations have weakened, the market has fewer transactions, and the number of inquiries is light. It is expected that the tryptophan market will be weak in the short term.

API

03

Tylosin tartrate/tilmicosin, the mainstream factory quotations were slightly adjusted this week, mainly affected by market demand and product costs. At present, the market stocking and procurement orders have increased, and the market heat is slowly increasing. It is speculated that the price will stabilize at the bottom in the future.

FOOD ADDITIVE/ Sucralose

04

Affected by market demand, the price of food sweetener sucralose has slightly dropped, and the current market price is stable at USD12.6-13/KG. In the short term, the price will not change significantly, and we will continue to pay attention to market changes.
