API

03

Hebei Xinghua Biotechnology Co., Ltd.'s annual output of 2,100 tons of API project is expected to be completed by the end of this year and enter the trial production stage. The core products of the project cover doxycycline hydrochloride, amoxicillin and ivermectin APIs, with a total investment of up to RMB 510 million, covering an area of 60.3 acres.

FOOD ADDITIVE

04

Creatine monohydrate is currently in tight supply, and shipments from mainstream factories have been scheduled until late November. Currently, the transaction price of creatine in the domestic market is maintained between 4.5-4.9usd/kg. The price of mainstream factories remains stable, and the market shipment also shows a stable trend, according to this speculation, the price of creatine monohydrate may have a slight increase in the future.
