

VEGA DAILY

Vitamins to VEGA!

3rd. December. 2024

VITAMIN

01

According to market news, Changhai Biological Branch of ZMC plans to suspend production for maintenance for 4-5 weeks starting from mid-January 2025.

AMINO ACID

02

Methionine: The market price of methionine remains stable, and the contract price in the domestic trade market is between USD2.55/KG. Some manufacturers have raised their quotations, but the market procurement and sales are not active, and the factories are mainly focused on shipments. It is expected that the methionine market will be stable in the short term, and we will pay attention to the factory order situation in the future.

API

03

On December 2, East Asia Pharmaceuticals announced that its wholly-owned subsidiary Zhejiang Dongbang Pharmaceuticals Co., Ltd. received the CEP certificate for cefaclor API (enzymatic method) issued by the European Directorate for the Quality of Medicines and HealthCare. The certificate indicates that the company's cefaclor API (enzymatic method) has obtained access to the European market, which will have a positive impact on the company's expansion of the European pharmaceutical market and promote the sales of the API in other overseas markets.

FOOD ADDITIVE

04

The nutritional supplement product creatine monohydrate, the current mainstream factory has already arranged the goods until the end of December, and the domestic market transaction price is about USD4.3 /kg. At this stage, the market sales volume is weak, and the price trend of creatine monohydrate is mainly bearish in the short term.
