VITAMIN   01

Recently, Wanhua Chemical Group Nutrition Technology Co., Ltd. applied to Qingdao Customs for registration for export feed production and processing, and was approved for administrative license.

AMINO ACID   02

On January 9, 2025, the Harbin Branch of Daesang (Beijing) Food Group Co., Ltd. quoted: Daesang Food SEWON brand 98% tryptophan is quoted at USD 6.93/kg, and Daesang Food SEWON brand 50% tryptophan is quoted at USD 3.28/KG.

API   03

Recently, Northeast Pharmaceutical's empagliflozin API passed the review and approval of the Drug Evaluation Center of the State Drug Administration, and the registration number was successfully transferred to A, realizing the transformation from R&D to production.

Oxytetracycline hydrochloride, the overall delivery of mainstream factories has been tight recently. The current market price is USD 11.1-11.7/kg. It is expected that the price will remain strong before and after the Spring Festival. In the future, we need to continue to pay attention to the delivery of raw material oxytetracycline, factory production progress and market demand changes.

FOOD ADDITIVE   04

Today, the 2nd Probiotics R&D and Application Frontier Forum was successfully held at the Ningbo Academician Center in Zhejiang. The forum was led by Yuansheng Biotechnology and Rexinchang Research Institute, and invited many experts and scholars with important academic influence in the field of probiotics to focus on the basic research and functional applications of the new generation of probiotics (represented by AKK).

Unisons Biotechnology was established in 2019. The annual production capacity of probiotic powder in the first phase of the factory is 600 tons, with more than 1,000 application formulas, and an annual production capacity of 1 billion strip packs.
