25th. March. 2025

## VITAMIN

01

On March 24th, the vitamin E market began to become active, and the mainstream transaction price also rose to above USD14.9-15.2/KG. Factory quotations remained firm and inquiries from the export market increased dramatically.

## AMINO ACID

02

Methionine: The price of solid methionine has increased, and the market order price has increased slightly. The number of inquiries in the trade market has increased, and the price is USD2790-2820/MT. As solid methionine manufacturers have successively issued maintenance announcements, the market buying and selling heat has increased, and the transaction has improved slightly. Pay attention to the order signing situation of market users. It is expected that the price of methionine may be slightly adjusted to a stronger level.

## API

03

The factory price of colistin sulfate has remained firm recently. Currently, the mainstream factory quotes are USD14-15/KG. There is a small supply of low-priced goods in the market, and customers' price acceptance is relatively stable. In the short term, prices are expected to remain stable.

AstraZeneca announced that the innovative targeted biologic for severe eosinophilic asthma (SEA), Benrelizumab injection (trade name: Vansudox), has been officially launched in China for the maintenance treatment of severe eosinophilic asthma in adults and adolescents aged 12 years and above. Benrelizumab is an innovative anti-IL-5R biologic that precisely targets eosinophils (EOS) and is also AstraZeneca's first biologic in the respiratory field.

## FOOD ADDITIVE

04

Recently, the National Health Commission launched a consultation on lutein esters (retinal protection), D-allulose (zero-calorie metabolism regulation), Bifidobacterium animalis BLa80 (intestinal immune targeting), and Bifidobacterium longum LMG11588 (infant formula microecology), empowering a healthy China with synthetic biology and strain-level research and development.
